

QWidget

```
classDiagram
    class QWidget
    class ChartPanel {
        + ChartPanel()
        + onSensorData()
    }
    QWidget <|-- ChartPanel
```

The diagram illustrates a class hierarchy. At the top is the 'QWidget' class, represented by a white box with a gray border and two empty internal compartments. Below it is the 'ChartPanel' class, represented by a gray box with three compartments. The top compartment contains the class name 'ChartPanel'. The bottom compartment contains two public methods: '+ ChartPanel()' and '+ onSensorData()'. A blue arrow with a hollow triangular head points from the 'ChartPanel' class up to the 'QWidget' class, indicating that 'ChartPanel' inherits from 'QWidget'.

ChartPanel

+ ChartPanel()

+ onSensorData()
